### CHILDREN'S AUTHOR TO CONTINUE CARIBBEAN SERIES

02 April 2009

St. Kitts & Nevis – April 2, 2009 (WINN FM): ‘Mark bent down on all fours and looked under the seats for the little brown mischief-maker. He finally caught sight of him, near the front of the bus, holding the strap of a handbag that could only belong to one person, Ms. Isles.’ (Excerpt from ‘Adventure at Brimstone Hill’)

Nevis-born children’s author, Carol Ottley-Mitchell is planning to extend the adventures of her three main characters, Mark, Kyle and Ingrid into a Caribbean series.

“Right now I’m working I’m in the process on working on one which is based in Port Royal, Jamaica,” she told WINN FM in an interview on The Breakfast Show, Wednesday.

“Kyle [is] really into pirates and so this one involves Mark and Kyle and they...go to Jamaica and they get into a little thing with some...pirates down there. And I’m [going] do a couple more,” she said.

“I’m [going] do another one in St. Kitts based on Independence Square and do as many of the other islands as possible. They’re not always [going] be historical, which is why it’s Caribbean *Adventure* series, but they’re always [going] be adventures involving the kids, [and] Chi-Chi the monkey.”

Born in Nevis, and raised primarily in Trinidad, Ms Ottley-Mitchell has lived on several islands in the Caribbean and seen many parts of the world, but has always ranked Brimstone Hill as an incredible historical site. She has returned to live in St. Kitts and Nevis where her passion for Brimstone Hill and her love of reading, children and her Caribbean home led her to work on his first novel, “Adventure at Brimstone Hill” (published last November).

“I’m very passionate about children...and I’m very concerned about the fact that a lot of children, not just here, but worldwide, are not reading enough. They watch a lot of TV.”

Ottley-Mitchell said there was a need for more Caribbean-themed children's books. She told WINN FM that she felt that one of the reasons why Caribbean children weren't reading as much as they should was because many of the books contained cultural references that were unfamiliar to them.
